Welcome

to the first edition
of Clarity Magazine

It is our pleasure to present to you
a unique insight into the world
of Crystalite Bohemia.

Through this magazine, we wish to share our story, capabilities, collections, and, most importantly, our passion for quality glassware.

Over the past few years, we've grown more mindful of our relationships with people. Through this awareness, we draw inspiration from the role our glassware plays in people's relationships with each other, with the world, and with themselves.

As a global leader in the production of Bohemian glassware, we pride ourselves on our professionalism, quality, and partnerships.

Clarity Magazine embodies the new vision and identity of Crystalite Bohemia; within it, you will experience our spirited new design language and brand.

Just like everything we do, every page in this magazine reflects our clear and enduring commitment to establishing and strengthening bonds with our business partners as well as consumers.

In this spirit, we hope you enjoy Clarity Magazine.

The Crystalite Bohemia Family

Unique
Glassware
for every occasion

To a Clearer & Brighter Future

The new Crystalite Bohemia
brand re-energises our offer across
all segments of our business.

We create glassware that accompanies people through their lives – this is our tradition and our future.

We designed our new brand to better reflect the clarity, beauty, and durability of Crystalite Bohemia glassware. Our fresh visual identity symbolizes the delight and wonder that every piece in our collection inspires at social events, in reflective moments, and as decorative elements.

Crystalite Bohemia unites artistic tradition and dynamic innovation in unique and enchanting ways. We conceived our new brand with a desire to elevate spirits and beautify spaces.

We are in people's hands.

We are on people's lips.

We are in people's homes.

We are in people's workplaces.

We are in restaurants, bars, hotels around the world.

Wherever and whenever people come together to share time, Crystalite Bohemia glassware is there.

Our Heritage shines brightly within every product we create. Crystalite Bohemia has evolved over many centuries of devotion to creativity, attention to detail, and progressive production processes.

Our Purpose is as clear as our glassware. Crystalite Bohemia is glassware for every moment of people's lives – from daily necessity to once-in-a-lifetime celebration

Our Ambition is as enduring as our glassware. Crystalite Bohemia touches and enriches the lives of people around the world because our glassware is beautiful, durable, and affordable.

Our Vision is as pure as our glassware. Crystalite Bohemia will continue to create glassware in ways that unite creativity with contemporary technology. We will continually invest in innovations that enhance our commercial efficiency and production methods so our glassware is always available to everyone, everywhere.

The New Brandmark

We combine natural elements – earth, fire, water, air, and metal – in harmony to create our glassware.

We apply modern automated processes to fluid molten glass – a material with which we have a centuries-old relationship – to create forms of timeless beauty.

The circular silhouette evokes trust and reflects a worldly 360-degree inclusiveness. The brandmark's bird-like form, with its wings spread wide, symbolizes our dynamic progress as we journey into the future and around the world.

CRYSTALITE
BOHEMIA

CLARITY

The Evolution of Crystalite Bohemia

Eleven years may seem not seem like much time for a company, but Crystalite Bohemia has achieved a lot since 2009, when it rebuilt its factory from the ground up.

Starting with just 80 employees, we revived one stemware production line to set the glassworks on the path to its former glory.

Year by year, we increased production output, hired more people, launched new production lines, expanded our collection, and updated the company's branding

to signify our modernisation initiatives.

The evolution of the Crystalite Bohemia logo reflects the progress we have made - from our humble beginnings to our innovative glassworks, our collections continue to bring joy to households in 82 countries around the world.

Cocktail Time

Crystalite Bohemia explores cocktails at home and abroad to discover spirited twists on timeless tipples.

With their bright colours and fascinating flavour combinations, cocktails give us a taste of luxury, sip by delightful sip. Their dramatically rising popularity has inspired enthusiasts to put fresh spins on beloved classics and create daring new concoctions to surprise and delight cocktail drinkers locally and around the world.

You're probably familiar with crowd-pleasers like the margarita, mojito, Moscow Mule, and Manhattan. To give you a taste of something new, we'd like to introduce you to some lesser-known cocktails from the Czech Republic, a couple of international classics, and some unique flavour additions to popular bar standards.

Some Czech cocktails exhibit distinct notes of cloves, cinnamon,

and bitter herbs due to the inclusion of spirits like Becherovka and Fernet. Others pack the potent alcoholic punch of slivovitz (plum brandy), which is normally drunk as a shot.

Meramble

In 1984, London bartender Dick Bradsell invented the Bramble, a harmony of sweet and sour with a snap of gin. The Meramble features lit cinnamon to deliver a smoky twist, and replaces blackberries with raspberries and lemon with lime. Shake gin, lime juice, and sugar syrup, then strain into glass filled with crushed ice. Drizzle crème de mûre over top. Garnish with fresh raspberries and lit cinnamon stick.

Beton

Invented for 1967 Montreal EXPO, Beton is a novel Czech twist on gin and tonic, using Becherovka instead of gin. Served in a tall glass on ice, the drink's name is an abbreviation of Becherovka and Tonic.

Ingredients

40 ml Becherovka Original
10 ml fresh lemon juice
100 ml premium tonic water

Collection

Diamond 260 ml

Kogut

Bohumil Pavlíček is the creator of the original "Moravský Kohout," a vigorous blend of slivovitz, vermouth, and Fernet. In 2016, Jazz Dock Prague bartender Ronald Maršál added a beetroot twist to create the Kogut.

Ingredients

20 ml slivovitz (plum brandy)
45 ml grilled beetroot-infused Martini Rosso
5 ml Fernet Stock

Collection

Colibri Martini 280 ml

Whisky & Soda

This simple, bracing, and refreshing classic has enjoyed mass popularity since 1781. As classy as it is casual, this drink is typically made with scotch, but you can use other whiskies, including Irish and bourbon. For added brightness, add a twist of orange zest.

Ingredients

One large ice cube (optional)
60 ml of your favourite whisky
60 ml soda

Collection

Quadro 340 ml

Sour White Russian

Created in the 1960s, bars saw a surge in demand for the White Russian after the 1998 release of the film *The Big Lebowski*. To give it a tangy edge, replace regular cream with sour cream. Shake vodka and sour cream, pour into chilled glass over ice, then strain in Kahlúa.

Ingredients

60 ml vodka
30 ml sour cream
30 ml Kahlúa

Collection

Alca 350 ml

California Cocaine

Robert "Rosebud" Butt claims he invented the Long Island Iced Tea - the forefather of the California Cocaine - in 1972. Due to the staggering amount of booze in both cocktails, nobody can clearly confirm this. To make California Cocaine, shake or stir all ingredients together and serve in a tall glass.

Ingredients

20 ml bourbon
20 ml Malibu
20 ml amaretto
20 ml peach liqueur
20 ml Bols Blue
20 ml fresh lime juice
60 ml pineapple juice

Collection

Barley Twist 390 ml

Clover Club

The Clover Club was the preferred drink of gentlemen in pre-Prohibition America. Don't be fooled by its dainty appearance - this pretty-in-pink drink packs a generous gin-soaked punch. Dry-shake an egg white in a cocktail shaker, add the rest of the ingredients and shake, then strain into a chilled cocktail glass.

Ingredients

45 ml dry gin
15 ml raspberry syrup
20 ml fresh lemon juice
1 dash sweet vermouth
20 ml egg white

Collection

Sterna Champagne Coupe 200 ml

Fantastic Synergy

Creates Fantastic Glassware

Crystalite Bohemia and Cerva Bohemia create marvelous glassware at vastly distinct scales. Working in unity, the companies wed innovation and tradition to produce some of the world's finest mass-produced glassware.

Crystalite Bohemia is an exemplary automated facility where over 500 professionals produce 120,000 pieces of glassware per day. Founded in 1794, Cerva Bohemia is one of the Czech Republic's most established glassworks. Every day, its 100-strong workforce produces hundreds of exclusive handblown glassware pieces for buyers for hotels, boutiques, and households all over the world.

Despite these fundamental differences, these two dissimilar glassworks work in a synergy that benefits both companies as well as their customers. There are three key elements to this harmonious cooperation.

First, they share the same owner, Mr. Lubor Cerva, who bought the handmade glassworks in 2010, just one year after acquiring Crystalite Bohemia. For both companies, he has been focusing on improving efficiency, modernizing facilities, and attracting new customers in markets that are still unfamiliar with our glassware.

Second, many Crystalite Bohemia customers have diverse product portfolios; therefore, expanding their offer with handmade glassware for high-end customers presents an interesting opportunity. Thanks to their close ties with Crystalite Bohemia, they can connect to the right person in Cerva Bohemia's sales department with one phone call.

Finally, Cerva Bohemia handles colour spraying for selected pieces in the Crystalite Bohemia collection. The handblown glassmaker can also provide unique decorative elements such as etching, engraving, and gold and platinum painting.

So, rather than being driven apart by their differences, Crystalite Bohemia and Cerva Bohemia are very closely connected and complement each other to produce fantastic glassware.

Flight Path

Showroom
on the

Situated directly opposite the Prague Airport terminals, our new Cerva Bohemia and Crystalite Bohemia showroom creates an extraordinary customer meeting experience.

We designed the Cerva and Crystalite Bohemia showroom to evoke the passion and tradition of glassmaking.

On entering, you'll find yourself in a space brimming with the beauty and wonder of every stage of handblown glass production, from melting sand to blowing and crafting liquid glass into exquisite vessels and decorations.

Enchanting architectural details, including glass walls, burnished wood design elements, round forms, symbolic material combinations, and elegant glassware all work in harmony to exhibit our grand heritage and

bright future as established Czech glassmakers.

Our showroom is strategically located across from Terminals 1 and 2 at the Prague Airport for your convenience. Whether you are enjoying an informal chat on one of the showroom's comfortable sofas or discussing business at the big conference table, you can take in over 200 years of tradition within this contemporary setting while enjoying a drink from our luxurious glassware.

We invite you to visit us; please bear in mind that meetings are currently by appointment only, which you can arrange via your sales representative.

Flower Power

Plant joy in every room with Flowers and Crystalite Bohemia

Flowers transform interior spaces, livening up even the duller rooms with their fragrances and freshness. A thoughtfully crafted floral arrangement adds a touch of sophistication while complementing the overall style of a space. With their unique shapes and textures, flowers infuse rooms with natural wonder and delight. Discover how you can enhance your interiors with different flowers and floral arrangements.

Table centrepiece

Small bunches of flowers are instant mood boosters. Contrast bright colours with natural tones to amplify your centrepiece and position it in a round glass to create an aura of clean refinement. Display in a low vase to keep conversation flowing freely over the table.

Collection

Orbit Bowl 30.5 cm

Red roses

A potent symbol of love, red roses evoke a subconscious sensation of bold passion. With shades ranging from candy apple red to burgundy, they add a composed playfulness to any interior. To bring out the full effect of their elegant beauty, position red roses against a plain background.

Collection

Eclipse Vase 32.5 cm

Orchids

Highly versatile and well-suited to modern interiors, orchids have an alluring structural grace that enhances any room. Neutral-coloured variants work best in small spaces; brightly coloured orchids add a sense of luxury to large rooms. Place in a wavy vase to make an eye-catching statement.

Collection

Wave Vase 34 cm

Contemporary bouquet

Instant attention-grabbers, lilies look fantastic in any room. Their big bold blooms fill spaces with a sweet fragrance and show off an enduring beauty that is as simple as it is spectacular. To elevate their visual and aromatic impact, combine Easter Lilies with white roses.

Collection

Barley Twist 30.5 cm

Mixed flowers

Small delicate flowers work wonders in Scandi-style interiors, creating a pleasant nostalgic atmosphere full of happy memories. This makes them the perfect Mother's Day gift. Combine wildflowers with tulips and green foliage to create a harmonious flow of form and texture.

Collection

Diamond Vase 25.5 cm

Our Showroom at 41 Madison New York

41 Madison

As the cultural and financial nerve center of New York City, Manhattan attracts businesses from around the world.

Crystalite Bohemia is one such enterprise: for the past three years, we've been running a successful showroom at 41 Madison, near the famous Flatiron Building.

The immensity of the American market offers unlimited opportunities to sell and distribute Bohemian glassware. Fully aware of this potential, Crystalite Bohemia's owner, Mr. Lubor Cerva, led us in our efforts to establish a new branch in the US. In 2016, we took our first steps towards accomplishing this, registering Crystalite Bohemia Inc. in New York City and starting its operations immediately. Our American adventure truly began after registration, when we signed a three-year lease for our showroom at 41 Madison.

Since then, we have earned a reputation as an innovative and reliable Bohemian glassmaker. This has helped increase our sales every year, mainly via wholesale throughout the USA.

At the same time, we were able to connect with our end customers through our partnership with Red Vanilla, which focuses on e-commerce via sites such as Amazon, Overstock, and Wayfair. This was our first opportunity to try e-commerce and enabled us to serve smaller brick-and-mortar stores from a warehouse in Paterson, New Jersey. Smaller businesses have

been able to conveniently order smaller quantities and receive our glassware within a few days.

At the same time, bigger clients (e.g. TJX Companies) prefer direct shipments from our Czech factory due to the large size of their orders. Our American operations and partnerships enable us to accommodate businesses of all sizes as well as end customers.

Face-to-face discussions with our American clients are very important to us; our 41 Madison showroom gives us an invaluable opportunity to host them. We meet clients on a large scale twice a year during the NY Tabletop Shows, which take place every fall and spring and enable customers to see our new designs and discuss ongoing and potential projects. The Crystalite Bohemia showroom in Manhattan gives clients the chance to speak with us in person throughout the rest of the year.

In 2019, we extended our lease for three more years, signifying our continuing efforts to become a recognized Bohemian glassware brand in the USA.

It's All About the *Titanium*

Titanium

The Crystalite Bohemia glassworks adds titanium to its glass melt to increase the durability of our glassware. As a result, our glasses are more resistant against mechanical defects and don't turn grey after multiple cycles in a dishwasher. Unlike other glassware producers that recommend delicate dishwasher programs for their products, we guarantee the preservation of glass transparency even after the use of standard dishwasher programs. This innovation and the resulting quality have helped place Crystalite Bohemia among the world's most successful glassware producers. We developed this glass melt specifically to satisfy the demands of the HORECA industry.

Crystalite's ecological glass melt

The inclusion of titanium in our glass melt enables us to use an environmentally-friendly glass melting technique that doesn't contain lead compounds or any other heavy metals. Thanks to this unique method, we're able to implement fire polishing, a cutting-edge ecological glass polishing process that

adheres to best available techniques (BAT) guidelines.

Accidents happen, but when our glass breaks, you can rest assured the shards won't harm the environment.

How to care for glass

When cleaning other glassware in a dishwasher, you should select a program with a lower temperature that is suitable for glass.

The titanium in Crystalite Bohemia glassware ensures every piece retains its clarity when you clean it with your dishwasher's standard cycle.

Products decorated with colours, gold, or platinum are not dishwasher safe. Use lukewarm water, a mild detergent, and a fine sponge to wash. Wipe gently with a kitchen towel after washing.

Avoid turning stemware glass from the foot when drying with a cloth.

*Signature Tumblers, Decanters,
& Water Jugs*

Shaped by tradition, sparkling with contemporary originality. Unique barware collections for all tastes.

From home bars to private club lounges, our signature barware collections will satisfy the taste of the most particular connoisseurs.

Preserve your favourite sprits in our beautifully formed lead-free decanters. Pour a measure or two into our matching tumblers to enjoy a tippie with friends or wind down at the end of a busy day. Decanters, tumblers, and water jugs are available individually or as matching sets.

Tailor-Made Solutions

Crystalite Bohemia produces glassware for wholesalers, retailers, and high street brands. Our professional services include the production of custom re-brandable glassware.

During the design process, we provide you with 3D models and samples, modifying elements when necessary. We can work closely with you to design your packaging and perfect the brand experience you give your customers. We then engineer your order in our fully equipped automated glassworks, where we can also decorate your glassware by hand

using techniques that include colour spray coating, grinding, decals, sandblasting, gold and platinum adornments, etching, and engraving.

To learn more about how you can get unique and exquisite glassware for your business, please contact our sales department at crystalite@crystalite.org.

Glassware *Decoration*

Colour Spray Finishes

Our colour spray coating system enables you to order any item in our stemware, barware, and décor collection in any colour.

Matte finishes are available for some colour ranges.

In addition to the standard colour selection shown here, other colours are available on request.

Spray Treatments

Standard Colour Selection

Please note that colours presented here are indicative only.

Ready to Order?

The Crystalite Bohemia order form simplifies and speeds up the ordering process, making it easier than ever for you to order our glassware.

As convenient and easy to use as our mobile app, the Crystalite Bohemia order form enables you to order our glassware in a matter of clicks.

Simply select items and quantities you wish to purchase; the form automatically calculates the remaining order details, including total volume, weight, and cost. If it's relevant, you may also see the percentage of container volume that your order fills.

As you browse our collection while completing the form, you can see

each item's availability and next planned production date. A red "X" in this space indicates the piece is no longer available.

The Crystalite Bohemia order form gives you all the packaging data you need immediately. Not only does it save you time and effort, it helps us prepare and deliver your order more quickly. You also get a 0.5% discount as a bonus for placing orders through the form.

All Our Glassware in the Palm of Your Hand

Built for your convenience, the Crystalite Bohemia mobile app is available in Google Play and Apple's App Store.

Since its launch just over a year ago, the simple and useful Crystalite Bohemia mobile app has earned praise from customers throughout the world. They especially value being able to place orders and track availability on their smartphones and tablets instantly, anytime and anywhere.

When developing the app, we focused on answering one question: How can we make it easier for business customers to choose and order our glassware? This inspired us to create a user-friendly mobile application that gives you a clear overview of our entire collection, featuring high-definition photos and stock levels for each piece.

To get the most out of the app, we recommend you register with us. As a registered business customer, you will receive a unique code that enables you to view prices and place orders from anywhere in the world with an Internet connection.

Handy, simple, and free, the Crystalite Bohemia mobile app is available to you right now! If you haven't done so already, you can install it via the Android and iOS app stores.

Crystalite Bohemia

Raising Glass

Isn't glass just glass?

Not exactly – there's glass and there's Crystalite Bohemia glass.

So what's the difference?

You know how normal glass is fragile? Crystalite Bohemia is stronger because it has titanium in it. Titanium is environmentally friendly – not like lead, which is what some other glassmakers use to make their glass strong.

Cool! But isn't titanium for super-high-tech things?

Yes, it is. Inspired by traditional methods that go back hundreds of years, Crystalite Bohemia uses super-high-tech machines to make its glass. Titanium is perfect making strong, long-lasting glass in a factory that combines modern technology and classic techniques.

That sounds like a lot of work – how much glass can they make?

Crystalite Bohemia's factory is one of the most advanced glassworks in the world, so it can make lots of glass in a short time. Every day they make 145 tons of glass-melt!

Wow! That sounds like a lot of glass!

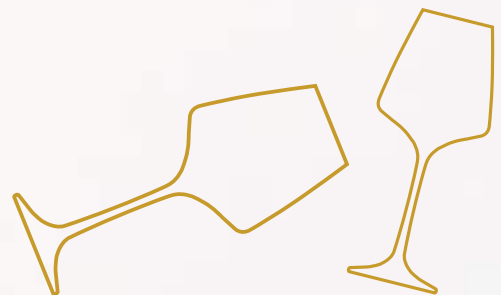

It sure is – as heavy as 24 elephants and, again, that's every single day. Crystalite Bohemia uses all that glass melt to make around 66 million pieces of beautiful glassware for people all over the world, every year.

That's amazing! But isn't Crystalite Bohemia only for rich and famous people?

No, not at all. Crystalite Bohemia is for everyone to use every day at home, and in hotels, bars, and restaurants – everywhere. Their glass is really for anyone who uses glass.

So, Crystalite Bohemia is really special and unlike any other glass – it's like super-glass!

Yes, it sure is!
